School/personal/temp github (just in case): https://github.com/GentlemansKiller

----

Skillset

Languages: Java, Python, HTML/CSS

Tools: Spring Framework, MySQL, Hibernate, Thymeleaf, Jinja 2, Flask (incl. FlaskSQLAlchemy)

Software/OS: Windows, IntelliJ IDEA, Visual Studio Code, Spyder, Git Bash

----

Project Experience

Composer's Project Dashboard

- Is a multi-feature, user-based project manager centered around musical compositions. Uses Dropbox API for filesharing, and integration with local files. Also features task management.

- Java for funcitonality, Thymeleaf for HTML templating, Spring web framework, MySQL and Spring JPA for data management

- https://github.com/NicholasJonesCode/composers-project-dashboard

Blogz

- School project for Unit 2 of LC101 (see Education). A web-based application which allows users to create and delete blog posts, and also to view others' posts. Includes secure user sign-up.

- Python for functionality, Jinja 2 for HTML templating, Flask web framework, MySQL and FlaskSQLAlchemy for data management

- https://github.com/NicholasJonesCode/blogz

Technical Education

LC101

- 20 week program that focuses on programming fundamentals, web basics, and more advanced concepts with Java.

- Curriculum covered: Python, Flask, Jinja2, SQLAlchemy, MySQL, Java, Spring, Hibernate, and Thymeleaf

- Built multiple in-class projects

Work Experience

McDonald's, Cook (approx. Nov 2015 thru June 2016)

- Prepare food, grill meat, fry other food, help take inventory and clean the kitchen.

- Work with other teammates and managers to ensure time efficiency

- Got 2nd place in allowed hours within 2 or 3 months. Was offered management training within 8 months, but stopped working there soon after.
